*Sprig*

USA 43

Update #1

## *The 6's are coming*

Sailors and enthusiasts, the boats are making their way to Newport, the parties are planned, the trophies have been ordered and all of Newport is eagerly anticipating the **2009 6mR world cup** that over 32 yachts have **registered** with 16 boats arriving from around the world.

**We are so pleased to be a part of this historic event supporting the Sprig from San Diego, California. Greg Stewart, owner and his crew will be competing in this great event. The crew will be:**

Greg Stewart – Drive  
SDYC Member, owned Sprig since 1998, Crewed 2007 6 meter Worlds 6<sup>th</sup> place.

Doug Jones – Trimmer  
SWYC Member that owns S&S yacht Pacifica. Regular Sprig crew. Professional shipwright.

Chris Dalton - Bow  
SWYC Member that crews on S&S yacht Pacifica & regular Sprig crew for past (5) years.

Kirstin Hetch - Trimmer  
Sailing Supply Manager. Regular Sprig crew for past (4) years.

John Gladstone – Tactician & Sailmaker  
SDYC Member whom has sailed on Sprig over last 20 years.

The racing will be held both offshore and in Narragansett Bay (Newport, RI) depending on the conditions. There are eight (8) Windward/Leeward races scheduled for the World Cup each approximately 8 miles. **Sprig** will race with Dacron Sails, which will make **Sprig** eligible for the B&K Classic Trophy. (This is the trophy that we won when I sailed with Doug Peterson on the 6 m **BobKat** in the 2007 6-meter World Cup.)

Note from Greg: *"It is going to be the first time many of the 6 meters have ever lined up against each other and in some cases the second time in 75 years since the last time they lined up against each other! This is true on both scores for **Sprig** that had a relatively short life in the top 6 m fleet. Further in the case of **Sprig**, it's amazing to think she has not been in the Atlantic Ocean for approx 50 years".*  
*"Another thought that recently struck me and has further fueled my desire to compete with **Sprig** in the 2009 6m World Cup is the fact that the event will be raced in economic times similar to the period when she was built 80 years earlier. The saying... the more things change the more they stay the same... seems very relevant. I have also been saying if these guys can do it so can !!!"*

*"I am really looking forward to this event that will be an event not to miss...especially since it is likely that the World Cup will not return to the states for 12 or more years."*

All of your supporters want to wish Greg and his crew the very best!

Best Regards,  
Leslie Jenness
